Bourque Logistics Announces Partnership with eRAIL COMMERCE®

The Woodlands, Texas – January, 2017. Bourque Logistics, the leader in logistics software and services for industrial shippers, introduces a partnership with eRAIL COMMERCE®, a professional railcar broker and storage services provider.

As a benefit to our customers, Bourque Logistics will provide a link on our login page to access the eRAIL COMMERCE® website. There, customers are able to search and/or list railcars for their specific needs. By having this available, our customers are able to access an extensive database of new and used railcars available for sale or lease.

“Our clients have often inquired about an effective way to source and release railcar assets as well as search for available storage”, said Steve Bourque, President of Bourque Logistics. “This valuable service by eRAIL COMMERCE® provides a highly effective method to do so and we are very pleased to initiate it and look forward to client feedback for future enhancements.”

About Bourque Logistics

Headquartered in The Woodlands, Texas, Bourque Logistics is the leading rail fleet and shipment management software for rail shippers and has automated rail shipment processes for shippers since 1989 with RAILTRAC®.

Bourque Logistics now provides a full suite of modules addressing multi-mode shipment operations for loading and shipping, bill of lading submission, tracking and tracing, freight rating and payment, fleet accounting, supply chain management, and custom reporting. Our EDI data services connect shippers with their suppliers, customers, and carriers. Bourque Logistics also provides professional service support for rail fleet expediting and railcar maintenance management.
